The impression seems to prevail that the Roosevelt Memorial Association seeks only to construct a monument to Theodore Roosevelt. Nothing could be further from the truth, and, we feel sure nothing would be more objectionable to Theodore Roosevelt if he were alive.

We are in receipt of information that the Executive Committee of the Association has definitely decided that three out of every four dollars subscribed to the Association will be used straight out for the Americanization program of the Association, for work among the foreign born; and to combat the growth of unrest and class hatred by propagation of the spirit of patriotism.

This puts the work of the Association on the broadest and highest plane of patriotic service, and starts a continuously active campaign for pure Americanism. Thus will the memory of Theodore Roosevelt be best served by serving the country he loved.

HIGH SCHOOL NOTES  
School resumed session after the short vacation caused by the Southwest Missouri Teachers meeting at Springfield. All the teachers who attend reported a good and profitable meeting.

The Senior Class is planning a Halloween Friday evening in honor of the high school students.

The Basket ball team deserves honor for bringing home the scalps last Saturday week. The game was not a close contest nor a very interesting one but we hope to make the contest next Saturday a good one. Come out and see it. The result of the last game was 26 to 13. Lets make it 50 to 0 Saturday. Come out and boost.

The Debating Club gave an interesting stunt in assembly Wednesday morning. The subject of discussion was a divorce suit. If you don't come out and see and hear these stunts, you are missing something. SO come out whe we have our class programs in the near future.

We are sorry to loose Curren Johnson from our midst.

We hate to think either the Crane or Ava basket ball team are afraid of us but account for the four games recently canceled??

## There Is a Delco-Light Man Near You

No matter where you live, there is a Delco-Light man within easy reach of you.

This means much more to you than mere convenience in the purchase of a Delco-Light plant.

These men are trained men—they KNOW electricity as applied to farm use. They can advise you as to the size of plant you should have.

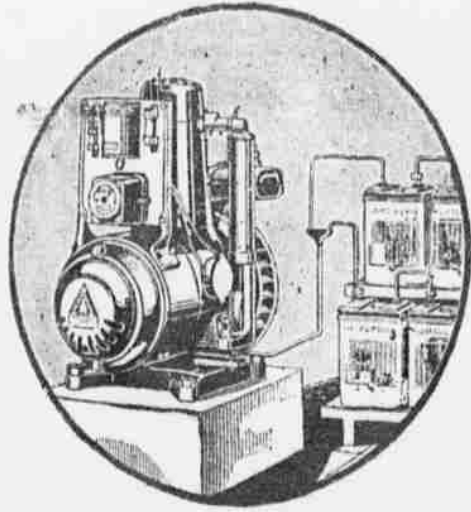

They can see that your house and barn are properly wired—

They can superintend the installation of the plant so that it will give you the most efficient and economical service.

They can give you intelligent advice as to the purchase and use of water system, washing machine, churn, separator, milking machine and other appliances that you can operate with the electricity furnished by Delco-Light.

And—after the plant is installed they are always near-by to advise with you and see that you get one hundred per cent satisfaction out of its operation—

Delco-Light is lightening labor, bettering living conditions and actually paying for itself in time and labor saved in more than 75,000 farm homes.

Macomb will move to Charley's old place that he has bought, and will make his home. We are sorry to lose Mr. Bass and his good wife from our community but Reeds Spring and Stone

will be great gainers.

The old time went into effect Sunday morning at 2.00 a. m. and the only thing much noticeable about it was we had to wait an hour longer for dinner.

But now this fad is gone for good and old King Sun will be IT, and you can look him in the face once more with the assurance that he knows what time it is.
